

WHY TAKE PART

Is your family business involved in impact investing? Do you want to experience first hand what impact investing is about? Then the Next Gen programme of Pymwymic is right up your alley.

The Pymwymic Next Gen programme is designed to learn about impact investing from the daily practice of an impact fund. You will take part in a young, dynamic and international team investing in seed to growth stage impact companies. By taking part in an actual investment team, you get to learn from daily practice, you will develop your own vision and gain hands-on experience. Next time you join your family discussion, you can bring your own practice to the table.

DONOR FUND

During the Next Gen programme you will focus mainly on investments of Pymwymic's Donor Fund. The main goal of this fund, Stichting Pymwymic Donor Involve Fund, is to reduce social inequalities as well as solving social and environmental issues by supporting business solutions. We aim for young for young: we focus on seed stage impact enterprises that operate and are headquartered primarily within Europe. Our strategy for impact success is to bridge the gap, knowledge and network gaps in order to help young impact enterprises to cross the valley of death. Through donation capital, we offer equity and debt instruments, with returns revolving with the Donor Fund.

ABOUT PYMWYMIC

We are a community of over 100 European families, family foundations and individual investors who invest in companies that serve the wellbeing of people and planet. Our goal is to support and scale innovative, disruptive, early/growth stage impact enterprises. The Pymwymic Cooperative, as cornerstone investor in the PymHEIF, is flanked by two foundations: 1) the Field Building Centre, which carries out non-profit activities to support the transition from traditional to impact investing, and 2) the Donor Fund, which invests philanthropic capital in seed stage companies.

Is this you? We are curious to hear who you are!
