

DO YOU WANT TO CREATE A POSITIVE IMPACT?

*For more than twenty-five years, Pymwymic has been investing in companies that create disruptive solutions for global problems. As we are launching our next fund, the Pymwymic Healthy Food Systems Impact Fund II, we now invite applications for the role of fulltime **Investment Analyst**.*

As has become overwhelmingly clear, we pay a heavy price for current practices of our food system: biodiversity loss, greenhouse gas emissions, human health issues, and the list continues. Pymwymic invests in early to growth stage companies which are transforming the food system through innovative technologies. By playing an active role in embedding the positive impact of our portfolio companies, we aim to realise long lasting impact. This fund has been launched by the Pymwymic Cooperative, a community of 150 individuals, families, entrepreneurs and angel investors who are joint by the common goal to build a world where sustainability and inclusivity is common sense.

Are you a young professional with an unstoppable need to create positive change, a passion for food and soil and an entrepreneurial mindset? You might want to consider hopping on board and joining us on our quest to prove that tangible positive change can go hand in hand with financial returns.

YOUR RESPONSIBILITIES

- Deal origination through proactive sourcing events and general marketing
- Analysis of investment opportunities, including impact, financials and market
- Preparation of investment proposals for the Investment Committee
