

JOB VACANCY

DO YOU WANT TO CREATE POSITIVE IMPACT?

*For more than twenty-five years, Pymwymic has been investing in companies that create disruptive solutions for global problems. As we are launching our next fund, the Pymwymic Healthy Food Systems Impact Fund II, we now invite applications for the role of full-time **Investment Analyst**.*

It's become overwhelmingly clear, we pay a heavy price for the current practices of our food system: biodiversity loss, greenhouse gas emissions, human health issues... the list continues. Pymwymic invests in early to growth stage companies which are transforming the food system through innovative and disruptive technologies. By playing an active role in embedding the positive impact of our portfolio companies, we aim to realise long lasting impact. This fund has been launched by the Pymwymic Cooperative, a community of almost 200 individuals, families, entrepreneurs and angel investors who are joint by the common goal to build a world where sustainability and inclusivity is common sense.

Are you an eager professional with an unstoppable need to create positive change? Do you have a passion for food and soil and an entrepreneurial mindset? Well then, if the answer is "Yes!", you might want to consider hopping on board and joining us on our quest to prove that tangible, positive change can go hand in hand with financial returns.

YOUR RESPONSIBILITIES

- ✦ Support in deal origination through proactive sourcing, events and general networking
- ✦ Analysis of investment opportunities, including impact, business model, technology, management team, market, financials, valuation and risks
- ✦ Support preparation of investment proposals for the Investment Committee
- ✦ Monitor portfolio companies and support in reporting
- ✦ Drive external visibility of Pymwymic through social media and other platforms

OUR WISH LIST

- ✦ >2 years of work experience in private equity, corporate finance or strategy consulting
- ✦ Self-starting, well-organised, entrepreneurial individual who takes own initiative
- ✦ Experience across the full deal cycle is a plus, with a preference for candidates that have experience executing (impact) investments
- ✦ Financial modelling, accounting and valuation knowledge
- ✦ Strong analytical, strategic-thinking and project management skills
- ✦ Excellent written and verbal communication skills (English fluency is mandatory)
- ✦ Impact minded with a strong interest in agriculture and food systems

THE POSITION

Role:
Investment Analyst

Timing:
April / May

Location:
Amsterdam

Job Type:
Full time

Remuneration:
Market Standard

THIS IS US

- ✦ We are a passionate, fun, dedicated and professional young team who like to outperform expectations
- ✦ We rely on each other's feedback to continuously learn and improve
- ✦ We have all consciously chosen to work for a brighter future
- ✦ We'd rather get our hands dirty than be stuck in an ivory tower

OUR IMPACT INVESTING APPROACH

As a shareholder, we are the impact guardians and act to ensure that impact is embedded and 'alive' in our portfolio companies. There are several ways in which we play our impact role:

Develop an impact strategy with management

Measure and monitor concrete positive impact indicators

Ensure governance anchors for long term guardianship

Support impact showcasing both internally and externally

Minimise negative footprint throughout the value chain

SNAPSHOT OF CURRENT FOOD FOCUSED PORTFOLIO COMPANIES

Automated data-driven smart pest monitoring systems reducing the usage of pesticides and chemicals.

Autonomous weeding robots to support farmers with sustainable food production.

A sustainable alternative to chemical weed control by using electricity to boil weeds inside out from the root upwards

Locally grown organic and additive-free baby food produced with care for the environment.

SOUND INTERESTING TO YOU?

Then we would like to hear from you! Email info@pymwymic.com with 'Investment Analyst' in the subject title and add both a CV and motivation letter. Applications are only considered in English and will be considered on a rolling basis until **March 18th, 2022**.
